

DRIVERS EDUCATION OPT OUT FORM

Drivers Education is a semester long class offered to sophomores at PEHS and fulfills the .5 PE credit. Students are placed in the class each semester based on their date of birth. CPR certification and safety are also part of the course. If your child will be taking Drivers Education privately outside of the school day, he/she has the following options:

Option 1- Take a junior/senior PE elective course in place of Drivers Education to fulfill the .5 PE credit necessary for graduation. Students who choose this option will meet with a teacher outside of class time to meet the state requirement for CPR instruction. CPR certification is not an option with this selection.

Option 2- Remain in the sophomore Drivers Education class. Students who choose this option will not be charged or required to do *Behind the Wheel* instruction. Students will receive CPR/Safety instruction as part of this course. CPR certification is an option through this selection for a \$5 fee.

Please discuss the options with your child and return the form to your counselor.

Student Name: _____

ID#: _____

My child will be taking Drivers Education privately and chooses the following option from above:

_____ Option 1 Junior/Senior PE elective

_____ Option 2 Remain in Drivers Education class
