

A large, faint illustration of a lightbulb with a brain inside, set against a purple background with radiating lines. The lightbulb is centered and occupies most of the frame. The brain is depicted with a stylized, swirling pattern. The radiating lines are short and dark, emanating from the top and sides of the lightbulb.

Tutoring and Learning Center Services

The Tutoring and Learning Center is here for you. Our certified tutors can help you maximize your academic potential. From helping you find the time management or organizational strategies that make college easier to clarifying difficult content, we can help every student.

Virtual Appointments

Tutors available to help with any credit-bearing course

Request an appointment and meet with a tutor online. You can see your tutor and they can see you.

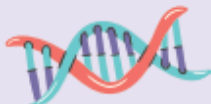

In-Person Appointments

Tutors are available on campus to meet with you in person.

Access to Biology Models and other study aids

If you need some "hands-on" study time, we've got biology models, microscopes, and Zspace 3D machines.

Test Prep

We offer free prep for Aleks and Accuplacer placement exams and workshops for the TEAS test.

Online/On-Demand Skills Workshops

We've partnered with StudentLingo to provide you with a number of great workshops to enhance your study skills.

Check out our website for a direct link. Register using your JJC email address.

Virtual Drop-In

Pop in to our TLC Drop-In Team and ask a question or make an appointment.
